ETHRAEON - Snyder Canonical Kit

Complete System - Canonically Bound - Zero Trust Required

For: Jason Alan Snyder
From: S. Jason Prohaska (ingombrante©)
Date: December 15, 2025
ORCID: 0009-0008-8254-8411

What Makes This Different

Every claim is verifiable. No trust required. This kit contains everything needed to understand and verify ETHRAEON's complete operational system.

System Valuation

$28M – $45M

Realistic pre-money range based on 15 USPTO patents, IP pipeline, operational infrastructure, and acquisition comps

→ **View Complete Valuation Report**

Quick Start (5 Minutes)

1. **Verify This Kit** - [View Verification Guide](#)
   Every file has an EDG reference. Click to verify authenticity.

2. **Read Executive Brief** - [View Brief](#)
   10-minute overview. Shows what exists, what's operational.

3. **See It Working** - [View Live Systems](#)
   Live constitutional governance demonstrations.

01_VERIFICATION

`how_to_verify.html`   Instructions for verifying claims

02_EXECUTIVE

`SNYDER_BRIEF_STYLED.html`   Executive overview

Technical deep-dive

03_LIVE_SYSTEMS

`system_index.html`   Unified system map - all operational endpoints

`TRACELET 1.0`   Constitutional AI microkernel

`CCT Dashboard`   Constitutional compliance tracker

04_DEMOS

`demos_index.html`   All demonstrations

`ATLAS-C Constellation`   Intelligence dashboard

`Ethical AI Framework`   Constitutional AI demo

05_GOVERNANCE

`governance-studio-product.html` Solution spawning interface

06_RESEARCH

`ARCANUM-SERIES-COMPLETE-INDEX.html` 32 research papers

`papers-library.html` Individual paper access

`patents.html` 15 USPTO applications

07_PROOF

`canonical_binding_manifest.json` All verified surfaces

`CANONICAL_DEPLOYMENT_COMPLETE.md` Implementation report

`CANONICAL_BINDING_LAYER.md` Technical specification

Root Files

`CANONICAL_SEAL.txt` Cryptographic verification seal

`README.txt` Quick orientation

`valuation.html` Complete valuation report ($8.5M-$12.5M)
